The STEM Academy @ Bartlett in urban Savannah, Georgia, strives to provide a 21st century education to students using the best technology, forward-thinking research-based practices, and problem-based learning in an innovative, creative environment. The STEM Academy looks to design a new way of educating middle school students through engaging science, engineering, math, and fine arts practices. Seeking innovative community partnerships, the school attempts to mirror the creativity, soft skills, and leadership required to succeed in a technology-driven global marketplace. Technology, specifically a 1:1 iPad program, has revolutionized teaching and learning at The STEM Academy.

STEM Certified: 2015; STEAM Certified: 2018

Business Partners: Gulfstream, Georgia Power, El Paso/Southern LNG, Georgia Southern University-Savannah, South University, Savannah State University
