

CAMDEN COUNTY SCHOOLS

**ST. MARYS
MIDDLE SCHOOL**

STEM PROGRAM CERTIFICATION 2018-2023

STEM Program Characteristics

All students attending SMMS are part of our STEM program. Students are challenged to think critically and solve real-world problems through the use of problem-based learning units and activities. Our partnerships with Lockheed Martin, Georgia Power, Coastal College of Georgia, Naval Submarine Base - King's Bay, White Oak Conservatory, along with many other local businesses serve as the connection to professionals during student driven PBL projects. The goal of the SMMS STEM program is to prepare students to be innovative thinkers, effective communicators, detailed researchers, cooperative teammates, and productive workers.
