

TIGER STEM

ADAIRSVILLE MIDDLE SCHOOL

Adairsville Middle School is capturing our students' curiosity by integrating STEM into the academic curriculum. ALL students at AMS are able to discover the connection between their academic subjects and are able to apply new knowledge to real-world applications. Our STEM activities incorporate the four Cs: **Collaboration, Communication, Creativity, and Critical Thinking.**

AMS Vision: Through collaborative efforts, Adairsville Middle School will strive to grow our students in order to prepare them for college and career readiness and to be productive contributors to the community. We will accomplish this by providing STEM, PBIS, collaborative networks, and extracurricular opportunities.
