

Name of the school: H. V. Jenkins High School

County/District: Savannah-Chatham County Public Schools

Address: 1800 E. Derenne Ave., Savannah, GA 31406

Program: School of Engineering

STEM Contact: Grace Herrington grace.herrington@sccps.com 912-395-6327

Website: <http://internet.savannah.chatham.k12.ga.us/schools/hvj/soe/default.aspx>

Unique Characteristics of the STEM program: The program provides a strong engineering foundation using the PLTW Engineering Curriculum and is integrated with an advanced academic program. Computer Science is also a pathway available to our students. The school has earned AP Access and Support, AP STEM and AP STEM Achievement status for the past 3 years. The School of Engineering offers a multi-prong summer camp program for our students to expose them to a wide variety of career and higher education opportunities related to the fields of engineering.

Date range of certification: 2016-2021

Business/Community Partnership information: The School of Engineering has a strong Business and Community Advisory group with over 25 members. The group includes members from Business, Industry, Utilities, and Higher Education. The SCCPSS Engineering, Maintenance and Operations, and Technology Divisions have recently joined with us as well to employ many of our students in summer internships in addition to other internships offered by other Business Partners.
