Unique Characteristics

The Marietta Middle School STEM Certified Program provides students with an environment offering diverse STEM opportunities to maximize students' academic potential and promote innovative thinking to empower students for high school, college, and beyond. Students apply the engineering design process in problem solving, researching and developing solutions, and building the capacity to be competitive in a global society. The implementation of advanced academics connects through integrated, inter-disciplinary units of instruction based on the new Georgia Standards of Excellence (GSE). Engineering partnerships are developed to foster lifelong learning in and out of the classroom.

Date range of your certification: 2016-2021

Business/Community Partnership Information: The Marietta Middle School STEM Certified Program partners with the Marietta High School Pre-engineering /Pre-architecture Program through the Engineering Pipeline. This partnership provides students with a global approach to project based learning and problem solving.
