

TIGERS

Samuel E. Hubbard Elementary School wants to inspire life-long problem-solving and academic excellence by engaging students in real-life STEM activities. In 2017-2018 school year, Hubbard Elementary joined an elite group of Georgia elementary schools as a STEM Certified school. Hubbard Elementary embraces the challenge of doing an exceptional job providing students with a wide array of STEM learning opportunities including robotics, hydroponics, and problem-based learning. Georgia Farm Bureau has partnered with STEM Growers. STEM Growers is a student-led organization producing vegetables and fruits through hydroponics and aquaponics.

Through the school's Twitter account at https://twitter.com/hubbard_elem, see all of the Hubbard Elementary STEM happenings, and follow our journey at our website, <http://hes.monroe.k12.ga.us>. See our videos at <https://youtu.be/AQ6NXCEr85w>.
