Unique characteristics of our STEM program includes our aquaponics lab, organic gardens, state-of-the-art STEM lab, and indoor planetarium. From these, students are able to gain unique hands-on learning experiences.

Business partners and community sponsors include Sandy Springs Education Force, Equifax, Georgia Tech, and Dunwoody Nature Center. Members of the Kiwanis Club volunteer weekly for our Partners in Literacy program to read with students and build lifelong friendships. Delta Credit Community Center hosts an essay contest in which the winner receives a \$200 savings account!
